

Bogey Hills Country Club: St. Charles, MO

Home / Bogey Hills Country Club: St. Charles, MO

PROJECT DESCRIPTION

Client: Bogey Hills Country Club

Project: New Construction Clubhouse

General Contractor: Brinkmann Constructors

Architect: TRi Architects

Floor Area: 40,000 sf

Construction Schedule: May 2018

ROLE

Engineer of Record

Installing Mechanical Contractor

PROJECT APPROACH

Design/Build

PROJECT SCOPE

In February 2017, the 55-year-old Bogey Hills Country Club in St. Charles, MO was destroyed in a massive fire.

Wiegmann was chosen as Engineer of Record and Installing Mechanical Contractor for the construction of the new two-story clubhouse.

PROJECT CHALLENGE/SOLUTION

Wiegmann engineered a new energy-efficient and cost-effective HVAC system. Air handling units were designed to minimize fan speed and fan energy consumption when possible.
