

Brentwood School District: St. Louis, MO

PROJECT DESCRIPTION

Client: Brentwood School District
Project: School Renovation & Expansion
General Contractor: K&S Associates
Architect: Ittner Architects
Construction Schedule: Summer 2020

PROJECT APPROACH

Plan/Spec

ROLE

HVAC Mechanical Contractor

PROJECT SCOPE

Wiegmann's role in the \$18 million renovation project for the Brentwood School District is to upgrade the existing HVAC systems at the Brentwood High School and Middle school campus and install a new system for the 17,000-square-foot expansion being built between the two schools.

When school is in session, Wiegmann is working behind barricaded areas of the building and unoccupied floors. Wiegmann is also working after hours, on weekends and during school breaks so the school can be ready for the 2020-2021 school year.
